In this first issue of the new year, Journal of Physics Students (JPS) is coming with good news. JPS is now indexed by the world's largest specialized database for serial titles: Zeitschriftendatenbank (ZDB) and indexed by an electronic journals library which indexed nearly 35000 titles: Elektronische Zeitschriftenbibliothek (EZB).

Again in this issue, JPS is thankful to *ad hoc* scientific committee¹ for their participation. This issue is published with their great efforts in double-blind peer review process:

JPS is a forming open-access non-profit journal. Volunteered editorial positions are available for recent acting editor positions. You may apply for the listed editorial positions if you have good computing skills and at least have a single SCI-indexed publication. Please contact from editor@jphysstu.org for more.

Quarterly published, open-access, non-profit scholar journal JPS, (ISSN 1307-8194) accepts original research articles, letters and technical reports in various fields of research in physics and astrophysics. Contribution is open to all for graduate and undergraduate physics students and researchers of all nationalities.
